

IMPORTANT INFORMATION

Emerge Extreme IP65

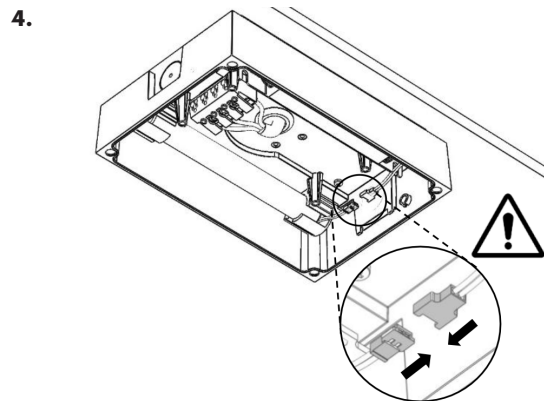

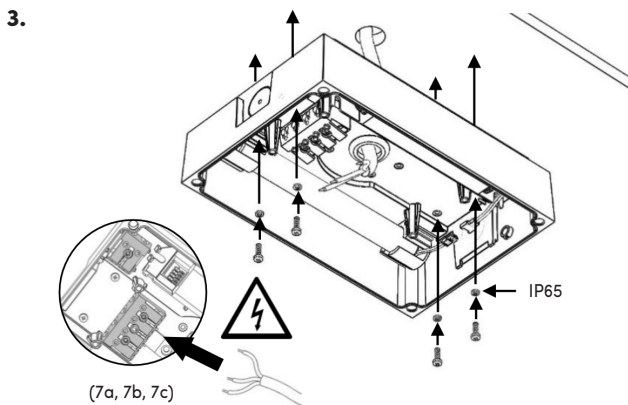

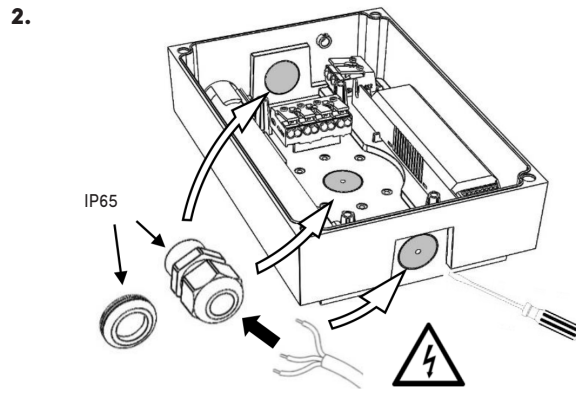

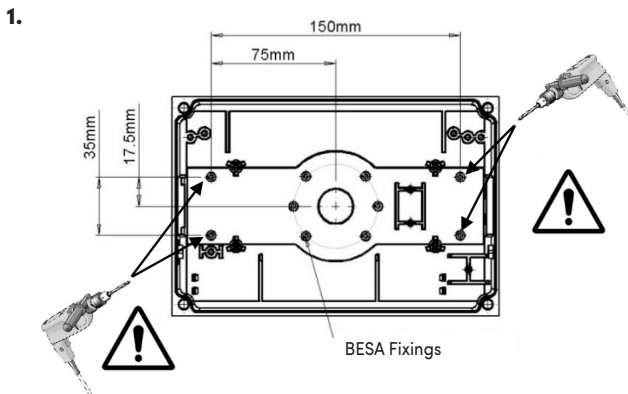

SD1532/SD1533/SD1534/SD1535/SD1536

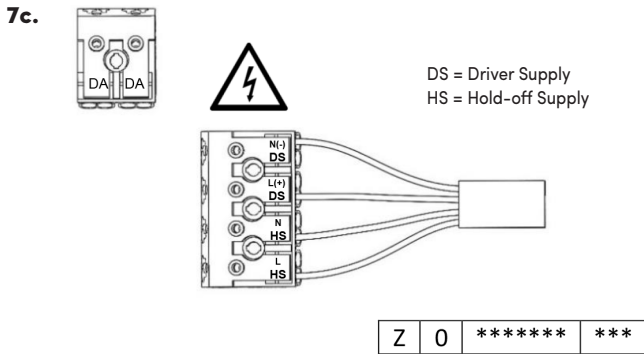

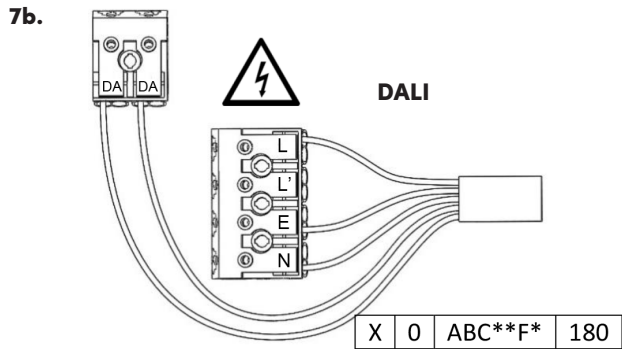

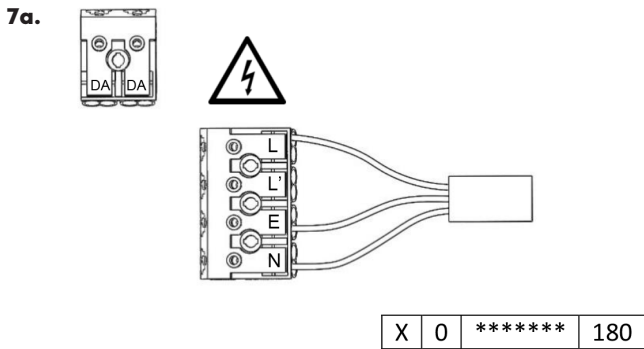

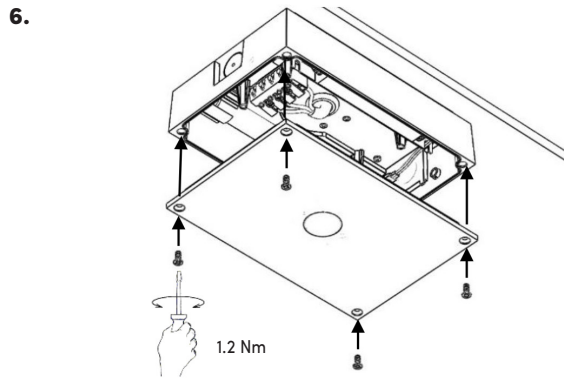

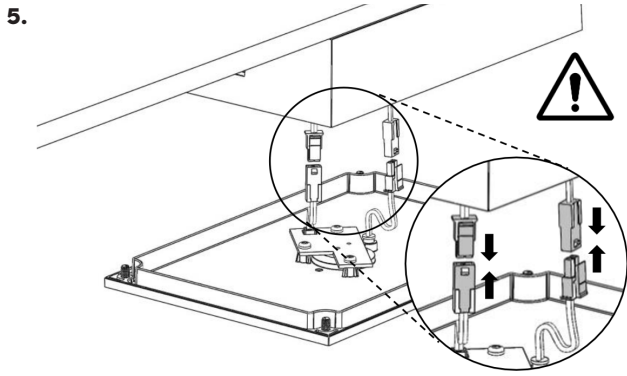

Escape Route Variant

Ensure electrical supply is isolated before fitting and/or making any electrical connections. Luminaires should be disconnected from the mains supply before any High Voltage Insulation tests are carried out.

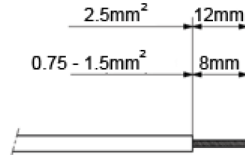

IMPORTANT INFORMATION

Cable Size & Strip Length

0.75 - 2.5mm²
Solid conductor or 7 stranded wire ends

High Bay Variants Only

WARNING: Do not stare at the operating light source.

- The luminaire should be positioned so that prolonged staring into the luminaire at a distance of closer than 1.34m is not expected.

Important

- If the luminaire no longer meets its rated duration of operation after the 24hour battery recharge period, the battery must be replaced.
- For battery replacement order codes, please contact Hacer Lighting.
- Basic insulation is provided between the live supply and DALI control circuits.

Reconnect the electrical supply and test the installation.
